Features
The following product specifications apply to fuses of the BTA series．
 The BTA series consists of thermal cutoff fuses for over－temperature protection．The BTA series thermal fuses are widely used in various applications such as transformers，adapters，secondary batteries， household appliances，gas water heaters，lighting and other heating equipment．

## Application

The BTA thermal cutoff fuses are non－resetting single－pole and normally closed devices and provide accurate，reliable protection for high temperature applications against overheating through interrupting electric current．With their metal body and strong leads these fuses offer a sturdy built and high rated currents such as 1 Ampere

Dimensions（unit in mm ）

## Part numbering system

4．1 Part Number
Example：BTA2011150

## ${ }_{c} \boldsymbol{M}_{\text {us }}$ © $\Delta$［GC

## Electrial Characteristics at $25^{\circ} \mathrm{C}$

| 7 | BTA $150^{\circ} \mathrm{C}$ | 150 | $144 \pm 2$ | 129 | 203 | 1A | 250V～ | － | － | － | － | － | $\bigcirc$ |

Note：1．o means pending
2．In ULcertification，the Voltage also including AC 125 V and DC 60 V （DC 60 V is limited to 115 C and 125C）
3．• means approved
