

BTB Series Thermal Fuse

Features

The following product specifications apply to fuses of the BTB series. The BTB series consists of thermal cutoff fuses for over-temperature protection. The BTB series thermal fuses are widely used in various applications such as transformers, adapters, secondary batteries, household appliances, gas water heaters, lighting and other heating equipment.

Application

The BTB thermal cutoff fuses are non-resetting single-pole and normally closed devices and provide accurate, reliable protection for high temperature applications against overheating through interrupting electric current. With their metal body and strong leads these fuses offer a sturdy built and high rated currents such as 2 Ampere

Dimensions (unit in mm)

Part numbering system

4.1 Part Number

Example: BTB2021150

BT	B	2	02	115	0
(1)	(2)	(3)	(4)	(5)	(6)
