1. SCOPE AND DESCRIPTION

Following electronic product specifications apply to chip fuses of the 064 series. The 064 series is a fast-Acting type chip fuse for over-current protection.

With their small size and layout, 064 chip fuses are ideal for industrial products. They are widely used in cellphones, DVD players, battery packs, hard disk drives and digital cameras.

2. GENERAL INFORMATION

General Description

The 064 chip fuses stand out due to their ultra-small size and excellent electrical performance, reliability and quality. The solder-free design provides outstanding on-off and temperature cycling characteristics during operation and also makes our chip fuses more heat and shock tolerant than typical subminiature fuses.

Detailed Features

- Pass the AEC-Q200 automotive grade certified
- Compatible with reflow and wave soldering
- Excellent environmental integrity
- Lead-free, Halogen-free, RoHS compliant
